How to participate?

Apply before 9 September 2019: describe your idea and submit via www.amsia.nl

"By winning the Amsterdam Science & Innovation Award we received a lot of media attention for the brain scanner in the ambulance of the Amsterdam UMC. Thanks to this media attention we also achieved our Heart Foundation crowdfunding campaign goal to finance the equipment. Currently, a scientific study is underway to show that our brain scanner works."

Jonathan Coutinho & Wouter Potters, winners 2018
